The *NDUS Accountability Measures Report for 2013* is currently under construction

The NDUS mandated requirements go back to 1999 when the legislative Interim Higher Education Committee was expanded by the Legislative Council to become the Roundtable on Higher Education, a group of state leaders from the public and private sectors who established new expectations for the NDUS. In 2001, SB 2003 was passed by the Legislative Assembly and the Roundtable members identified key cornerstones on which to build a university system for the 21st century. The Roundtable then developed accountability measures that would allow stakeholders and the NDUS to measure success in revitalizing the state's economy. The annual NDUS Accountability Measures report is widely used to determine how well Roundtable, Legislative, and State Board of Higher Education expectations are being met.

The North Dakota University System campuses assume responsibility to the NDUS for fulfilling Measures: ED1, EE 1, EE 2, EE 3, EE 4, EE 5, and EE 6 of the mandated economic development (ED) and the education excellence accountability (EE) measures. Each is listed separately below in the yellow cells. Reported data are to be placed in the green cells under each heading.

Help the system office in completing or correcting contact information for each category. Please, in the event that we have missed something your campus has reported in prior years, add to our spreadsheet what is missing.

The system office needs your input by Wednesday, October 31. As always, thank you for your dedication and hard work. :-)

LRSC discontinued the Alumni Satisfaction Survey and Student Satisfaction Inventory following funding cuts for accountability measures.

EE 6 (page 23 of 2011 report) — *Employer-reported satisfaction with preparation of recently hired graduates.*

NOTE: with the implementation of the SLDS FINDET has been disovled and is no longer able to provide services to assist withthe mailings for this measure. It is the system's understanding that each campus will identify alternative methods of identifying employers.

Please provide any feedback you may have on progress toward the completion of spring 2012 surveys.

LRSC has recently implemented a process to track student employment after graduation as part of its new institutional effectiveness plan. The spring 2012 employer satisfaction survey is currently underway via Noel Levitz and will be completed prior to the end of the fall semester.
