

# Success of Development Students in Subsequent Courses

Lake Region State College

June 17, 2014

---

## Introduction

In 2010, the SBHE approved Policy 402.1.2, which establishes guidelines for identifying students who may require developmental courses prior to enrollment in ENGL 110 or MATH 103 or any other non-developmental mathematics course.

Prior to implementation of this policy, LRSC delivered ASC 084 Critical Reading, ASC 086 Writing Basics, ASC 091 Pre-Algebra, ASC 092 Beginning Algebra, and MATH 102 Intermediate Algebra as developmental courses.

In response to this policy, LRSC modified its developmental course offerings and, effective fall semester 2012, began offering ASC 086 Preparatory English, ASC 088 Composition Lab, ASC 091 Algebra Prep I, ASC 092 Algebra Prep II, and ASC 093 Algebra Prep III.

The following data provides information on developmental course enrollment and success rates of students enrolled in developmental courses between fall semester 2010 and summer semester 2013. Students are then tracked to determine the success rate of developmental students in subsequent courses through the spring semester 2014.

## LRSC Procedure

To comply with SBHE Policy 402.1.2, LRSC implemented the following procedures for placement into college courses.

### A. English Placement

1. Students with an ACT English sub-test score of 18 or higher or an equivalent assessment may enroll in English 110 or any other non-developmental English courses.
2. Students with ACT English subtest scores of 14-17 or approved equivalents may take ENGL 110 if co-enrolled in ASC 088.
3. Students with an English subtest score less than 14 or approved equivalents must complete ASC 086 prior to taking ENGL 110. Students who successfully complete ASC 086 and plan to take ENGL 110 must co-enroll in ASC 088 and ENGL 110.

### B. Math Placement

1. Students with an ACT Mathematics sub-test score of 21 or higher or an equivalent assessment may enroll in MATH 103.
2. Students with ACT Mathematics sub-test score of 19-20 or approved equivalents may take ASC 093.
3. Students with ACT Mathematics sub-test score of 16-18 or approved equivalents may take ASC 092 (followed by ASC 093).
4. Students with ACT Mathematics sub-test score less than 16 or approved equivalents may begin with ASC 091 (followed by ASC 092 then ASC 093).
