

# College for Kids

## Great Adventures for Kids

### Grades K-5

### June 21-24, 2021

### What is College for Kids?

College for Kids is a fun, enriching program, that challenges kids to use their imaginations, ask questions, think creatively, experiment, meet new friends, and experience a taste of college. The courses are designed to be fun and educational. They will be challenging classes with no homework or grades given.

### Who can attend?

Kids who have completed grades Kindergarten through Fifth and their skill levels, interests, maturity, and self-reliance are at a level to enjoy a challenging experience.

### Coordinated by

Center for Distance Education and Outreach Services

# College for Kids

## Program Structure

The program will run Monday through Thursday, June 21 – 24, 2021.

**Please check-in 15 to 30 minutes prior to your FIRST attending session.**

**Session Check-in:** 12:00 – 12:40pm, 2:00 – 2:15pm, 3:25 – 3:45pm.  
**Sessions run from:** ONE: 12:55-2:10pm, TWO: 2:15-3:30pm, THREE: 3:50-5:05pm.

Students are divided into classes by grade completed: Grades K-1-2 or Grades 3-4-5.  
 Students can choose to attend 1, 2, or all 3 sessions.

There will be no supervision after 5:15 pm. Students, you are responsible for your behavior on campus, and your parents are responsible for your ride to and from Lake Region State College.

## Registration

Online registration begins on **Wednesday, April 28 at 10:00AM.**

**No Early or Phone Registrations. Register at <https://www.lrsc.edu/collegeforkids>**

Please be careful to select the correct session and grade completed when registering your student(s).  
 For each session select a **first and second choice** for each time slot on the schedule for your grade level completed.  
 Registrations will be processed on a first come, first served basis...so register online early!  
**Class sizes are limited to 12 students unless noted otherwise.**

**If you require auxiliary service aid or have food allergies, please notify us when you register.**

## Fees

Fees are \$25.00 per class session per student. Full payment is due while registering.  
 Supplies are included in the class fee unless noted otherwise.  
 Payment for any additional required supply fee(s) of \$5.00 or less is due while registering.

Scholarships are available for qualified families. Please inquire by phone in advance for more information.  
 Registration for scholarships must be done in-person at Lake Region State College with all documents ready.

## Refund/Cancellation Policy

LRSC has adopted a **NO REFUND** policy for all sessions unless the session is **cancelled due to low enrollment**.  
 The student will then be placed in his/her second choice. If no second choice is indicated or the second choice is not available, we will strive to place each student in an acceptable choice. Parents will be contacted by phone or email when a class is cancelled.

## College for Kids Showcase

LRSC is committed to the health and well-being of everyone.  
 Unfortunately, due to covid guidelines  
 there will be no Showcase and meal this year.

## Class Descriptions

### All About Nursing

Lainie Estenson & Seaira Nygaard

Mask-up this summer to gain your nursing skills! Students will learn how the human body works, perform hands-on projects, and experience a nurse's role in healthcare.

### American Girl Recycled Treasures

Shaun Prince

Did you know, the items you would normally throw away can make something wonderful? "Follow your inner star" by joining us this week to create exciting activities for your American Girl Doll.

### Colorful Hands: Garden Stones

Casey Zehrer

Want to add a pop of color to your home? Create beautiful garden stones using concrete, glass stones, and more. Perfect for gardens, porches, and window seals.

### Colorful Hands: Paint & Planting

Casey Zehrer

Students will paint fun and colorful designs onto terracotta flowerpots. Then fill the pots with soil and plant a flower inside to care for all summer long.

### Colorful Hands: Tie-Dyeing

Casey Zehrer

**Additional \$5 fee**

Swirl and splash make a dash, using colorful tie-dyeing techniques. Get busy this summer tie-dyeing your very own socks and shirts!

### Crime Scene Investigation

Dawn L'Heureux

Work together to solve crimes by collecting and analyzing evidence. Use investigative and forensic skills to recreate the work of real – life investigators and scientists.

### Fun & Games

Courtney Holden

Is your creativity ready to burst this summer? Tap into your creative side with craft activities, board games, playing cards, puzzles, and melty beads.

### Junior Scientist

Shaun Prince

Want to learn about reptiles and amphibians or viruses and bacteria? How about doing experiments that change colors and fizz like crazy? Join us this week for a scientific excursion.

### Junior Police Academy

Andrew Johnson

A police academy for kids! Cadets will participate in physical fitness, finger printing, firearms safety & defensive tactics, learn about laws, and meet local law enforcement.

### Junior Police Tactics

Andrew Johnson

Everyday officers use different tactics to complete their daily tasks. Continuing Cadets will learn about note taking, handcuffing, defense & arrest tactics, room clearing, and much more.

### Kid Olympics

Jessica Byrd-Farr

Calling all competitors! Are you ready for some wacky fitness, healthy competition, and testing your strengths? Join us this summer to show the Olympian in you. **Wear appropriate clothing and footwear.**

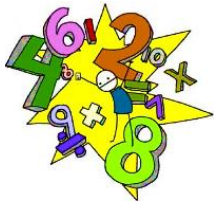

Thank you for registering for College For Kids

## Move & Maneuver your Math Mind!

Jess Edwards

♪ “2 – 4 – 6 – 8; Match, march, and maneuver your math mind into something great!” ♪ This summer explore, create, and expand on 3<sup>rd</sup>, 4<sup>th</sup>, and 5<sup>th</sup> grade mathematical concepts.

## Nature Artwork

Brenda Zinke

We’re going on a nature hunt to learn about what we see! Let’s create nature artwork, stone art, scavenger hunt, and grow your very own plant.

## Process Art: Let Nature Do All the Work!

Lilisa Reese

Let nature take the lead as students make Flower Mandala Suncatchers & create their own nature paint brushes that will be used to paint beautiful & unique artwork.

## Process Art: Stamp & Roll Fun!

Lilisa Reese

Stamp and Roll this summer as students create stamps out of things you could eat or cook with. Following with, using small toys that roll to see what beautiful creations come alive.

## Process Art: Summer Fun!

Lilisa Reese

Outdoor summer fun is on the rise! Artists will enjoy squirt gun painting, painting with bubbles, and ice painting.

## Robotics

Brenda Zinke

**Additional \$5 fee**

Robots, mazes, electricity and physics! Learn how to build and train your very own workable mini robot using recyclables.

## STEAM

Tanya Kraft

Students will use science, technology, engineering, art and mathematics for conducting science experiments. Students will explore, engineer and create experiments using different mediums and regular household items, creating structures, mazes and much more.

## STEAM: Fairy Tale Activities

Shelby Boucher

Popular fairy tales will be the foundation of the activities completed in this session. You will build and test various components from fairy tales.

## STEAM: Heavy Machinery

Shelby Boucher

We will be exploring and creating construction machinery. Students will test their machines to complete tasks. Please bring pop/milk caps, toilet paper rolls, and small boxes, if available.

## STEAM: Summer Activities

Shelby Boucher

Students will be using science, technology, engineering, art, and math to complete various activities perfect for the summer season.

## Water Fitness

Jess Dimitch

Looking to stay cool this summer? Splash on over to enjoy water-spray tag, fill the bucket, water balloon jousting, duck-duck splash, and holiday themed activities. **Wear appropriate clothing and footwear. Bring your swimsuit or a change of clothes for the day.**
