

North Dakota Telephone Company Scholarship Endowment

While North Dakota Telephone Company takes great pride in offering top-of-the-line telecommunications services to meet the needs of the Lake Region, it also takes great pride in establishing the North Dakota Telephone Company Scholarship Endowment.

NDTC realizes the challenges many people face as they work to attain a post-secondary education or training to better themselves. These challenges can be compounded by the worries and stress of financial concerns. That is why NDTC established the corporate scholarship endowment at Lake Region State College. This scholarship is awarded each year to an outstanding LRSC student.

Taking a stand for education and investing in the future, NDTC recognizes all students in today's society who are working to better themselves and prepare for the workforce. •
